EDUCATION

Bharati Vidyapeeth College of Engineering, IP University

Aug. 2023 – 2027

B.Tech in Computer Science and Engineering | CGPA: 8.3

New Delhi

Secondary & Senior Secondary Education

Senior Secondary (2022) – 80% | Secondary (2020) – 86%

EXPERIENCE

GAIL (India) Limited

June 2025 – Aug. 2025

Software Development Intern

New Delhi, India

- Led the UI/UX overhaul of the enterprise PRMS portal using HTML, CSS, and JavaScript, delivering a 40% more intuitive and responsive user experience for daily active users.
- Implemented CRUD operations using Entity Framework Core with SQLite and designed relational database models, streamlining data retrieval times.
- Built automatic scoring for objective questions, resolving 15+ critical validation bugs and improving overall system stability by 30%.

Beyond Moksha | Figma

Aug. 2025 – Oct. 2025

Freelance UI/UX Designer

Remote

- Designed and led the end-to-end UI/UX design for a commercial client website from scratch, delivering 20+ high-fidelity wireframes and interactive prototypes using Figma.
- Collaborated directly with the client to establish brand identity and translate business requirements into intuitive layouts, increasing projected user engagement by 35%.

PROJECTS

Scalable Ranking Engine for Competitive Platforms | Live

Jan. 2026

- Built a C++ ranking engine implementing dynamic memory allocation and merge sort ($O(n \log n)$) to process 10,000+ simulated users for leaderboard ranking systems.
- Integrated the engine with a Node.js API layer using inter-process communication, achieving sub-50ms response times.
- Engineered a leaderboard dashboard and deployed the full-stack system on Render with 99.9% uptime.

FarmEazzy (SMART INDIA HACKATHON) | Live | Figma

Sept. 2024 – Oct. 2024

- Engineered a responsive web interface for a farmer-centric marketplace, connecting 100+ local farmers with industrial buyers.
- Constructed responsive UI using HTML, CSS, JavaScript, and React, reducing intermediary communication time by 40%.

Web-Based PSP Simulator | Live

Feb. 2026

- Programmed an interactive PlayStation Portable (PSP) simulator tailored for the web, featuring an authentic XMB-style background and a custom cold boot animation.
- Integrated the YouTube API to enable seamless music streaming and added dynamic lighting effects, boosting average session retention by 25%.
- Developed and styled the frontend experience using modern web technologies including JavaScript, React, and Tailwind CSS, ensuring pixel-perfect responsiveness.

Lokally (TuteDude 48-Hour Designathon) | Figma

Apr. 2025

- Designed a mobile application interface to promote local stores and streamline delivery options, targeting a 30% increase in local business discovery.
- Crafted 15+ high-fidelity wireframes and interactive prototypes in Figma within a strict 48-hour competitive timeframe.

SKILLS

Programming Languages : C++, C

Web : HTML, CSS, JavaScript, React, Tailwind CSS

UI/UX Design : Figma, Wireframing, Prototyping

Concepts : Data Structures, DBMS, OOPs

Relevant Coursework : Data Structures & Algorithms (CodingBlocks), UI/UX Design (Tutedude)

ACHIEVEMENTS

- **3rd Place** Tutedude 48-Hour Designathon (60+ teams) | Designed “Lokally”, local delivery discovery app
- **Participant** Smart India Hackathon (FarmEazzy)
- **Top 5** DIGI DARZEE Design Challenge (Unstop)
