PROFESSIONAL SUMMARY

Product-oriented Computer Science student with experience in designing and building user-centric digital products across internships, freelance engagements, and hackathons. Skilled in user research, product discovery, requirement gathering, prototyping, and collaborating with stakeholders to deliver impactful product solutions. .

EDUCATION

Bharati Vidyapeeth College of Engineering, IP University

Aug. 2023 – 2027

B.Tech in Computer Science and Engineering | CGPA: 8.3

New Delhi

Secondary & Senior Secondary Education

Senior Secondary (2022) – 80% | Secondary (2020) – 86%

EXPERIENCE

Beyond Moksha | [Figma](#)

Aug. 2025 – Oct. 2025

Freelance Product & UI/UX Designer

Remote

- Directed the product vision and end-to-end UI/UX design for a commercial client, delivering 20+ high-fidelity wireframes and interactive prototypes in Figma.
- Partnered directly with stakeholders to translate business requirements into intuitive user flows, aligning product experiences with business goals and user needs.

GAIL (India) Limited

June 2025 – Aug. 2025

Software & Product Intern

New Delhi, India

- Led the product rebuild and UI/UX overhaul of the enterprise PRMS portal, redesigning user workflows to create a more intuitive and efficient experience for daily users.
- Collaborated with cross-functional teams to implement a relational database architecture, successfully streamlining data retrieval times.

PROJECTS

Locally (TuteDude 48-Hour Designathon) | [Figma](#)

Apr. 2025

- Identified challenges in local product discovery and designed a mobile solution connecting users with nearby stores and delivery providers.
- Conducted user interviews with 20+ potential users to understand challenges in local product discovery and delivery, using insights to shape core product features and user flows.
- Rapidly prototyped 15+ user journeys and wireframes in Figma within a strict 48-hour sprint, securing 3rd place out of 60+ competing teams.

FarmEazzy (SMART INDIA HACKATHON) | [Live](#) | [Figma](#)

Sept. 2024 – Oct. 2024

- Developed the Minimum Viable Product (MVP) for a B2B farmer-centric marketplace, connecting 100+ local suppliers with industrial buyers.
- Designed wireframes and constructed the frontend using React, successfully reducing intermediary communication time by 40%.

Club Duelz (Football Community Platform Redesign) | [Figma](#)

May 2025

- Redesigned the end-to-end experience of a grassroots football platform, improving player discovery, match participation, and community engagement through user-centric design.
- Conducted user research with 20+ grassroots football players to identify challenges in player discovery, team formation, and community engagement, informing key product decisions.
- Performed competitor analysis, mapped user journeys, and designed high-fidelity Figma prototypes.

SKILLS

Product & Execution : Product Strategy, MVP Development, User Journey Mapping, Agile/Scrum, Requirement Gathering

UI/UX Design : Wireframing, Rapid Prototyping, Usability Testing, Figma

Technical Literacy : API Integration, SQL, System Architecture (Node.js/C++), Frontend (React/JS)

Tools & Platforms : Figma, Git/GitHub, Postman, Render

Coursework : UI/UX Design (Tutedude), Data Structures & Algorithms (CodingBlocks)

ACHIEVEMENTS

- Top 100** ZS Campus Beats Tech Challenge 2026
- 3rd Place** Tutedude 48-Hour Designathon (60+ teams) | **1st Place** Code Clutch - Game Development Challenge
- Top 5** DIGI DARZEE Design Challenge (Unstop)
